TECH TIPS

FOR TEACHERS

When planning, always start with the learning objectives, not the tool or app!

Take Risks, and get out of your comfort zone!

Give students choice.

Always have a Plan B!

Use strategies like, "Ask 3 Before Me," to encourage student collaboration.

Be Consistent!

Don't be afraid to let your students teach you!

Utilize student tech experts to help other students.

Don't get swept away by new tools.

Start small. Don't try to integrate too many digital tools at once.
